

Minutes of SPS TC meeting 2011

Date: 12:30-13:00 on Oct. 20, 2011

Place: Floor 2, West restaurant, Grand New World Hotel, Xian, China

Attendee:

Chair: Prof. Akinori Nishihara Tokyo Institute of Technology
Secretary: Prof. Takeshi Ikenaga Waseda University
Member: Prof. Jun Ma Shanghai Jiao Tung University
Prof. Zhenyu Liu Tsinghua University
Prof. Constanin Siriteanu Hokkaido University
Prof. Jun Han Fudan University
Prof. Hongbin Sun Xi'an Jiaotong University

Agenda:

1. Confirmation of the minutes of the last TC meeting and the current TC member list

- We confirmed the member list and corrected a mistake.

2. Confirmation and discussion of the Bylaws

- Considering research interests of TC members, we decided to add "VLSI communication systems" as a new research of interest in the bylaws.

3. Recruitment of other TC members

- We decided to welcome the following three members to our SPS TC. Their membership starts from Jan. 1st, 2012.

Prof. Jiun-In Guo from National Chung-Cheng University

Prof. Chih-Tsun Huang from National Tsing Hua University

Prof. Hongbin Sun from Xi'an Jiaotong University

- We will continue recruitment of new TC members: One or more members from Korea, Taiwan, China, USA and Japan. Someone from other countries (Hong Kong, Singapore, Malaysia, Australia, New Zealand, Vietnam, ...) . Someone from industries.

We asked attendees to nominate some new TC members via e-mail. The secretary will make contact with them. If there are some appropriate candidates who agree to join, we will elect them via e-mail.

4. ASC 2012 special session

- We try to propose two special sessions for ASC 2012. Tentative scope is low power and high performance systems (same scope as ASC 2011).

We will ask USA members to organize a session, since ASC 2012 will be held in Hollywood. We also try to collaborate with other TC.

5. ASC2012 Call for Paper

- The number of submission for the SPS field is a little few. We encourage to correct more papers for ASC2012. We try to correct not only LSI and hardware related papers but also system oriented algorithm papers.

6. Others

- We requested to contribute to PCM2011 review and APSIPA new journal.
